Centre for Research on
Migration and Ethnic Relations

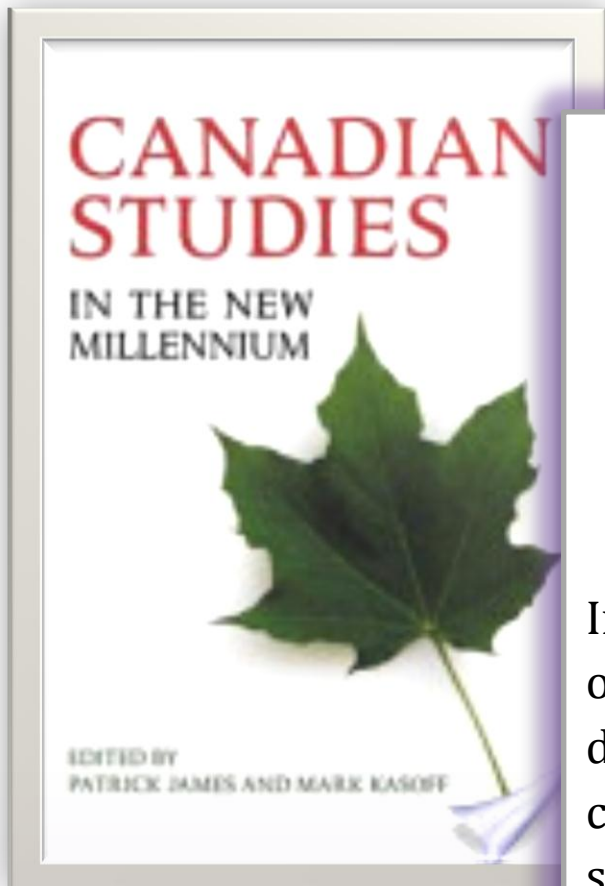

Fall Colloquium Series 2013

Dr. Roderic Beaujot -

Professor Emeritus of Sociology, Western University, and chair of the Statistics Canada Advisory Committee on Demographic Statistics and Studies. He is Principal Investigator for *Population Change and Lifecourse*, a Strategic Knowledge Cluster funded by the Social Sciences and Humanities Research Council, and Director of Western's Research Data Centre.

Dr. Beaujot's research interests include the evolving demographics of Canada and implications for social policy in areas of health,

Immigration and the Population of Canada: The role of policy

Immigration trends and associated policy are best described over specific phases of Canadian history. After characterizing the determinants of immigration, the presentation will focus on consequences, especially in terms of population growth, age structure, and distribution over geography, with brief attention to the social, economic and cultural impact of immigration, and a discussion of current immigration policy.
